

Marc Tucker

Software Developer

18/05/2017

PROFILE

I am a 22-year-old student currently completing the final semester of my bachelor's degree at the Auckland University of Technology. I am immensely passionate about developing/improving solutions for complex and diverse technical problems. In my spare time, I enjoy exploring innovative technology, developing games, or improving my fitness. I consider myself a friendly and motivated individual, with a good critical thinking, and problem-solving mindset.

EDUCATION

Auckland University of Technology /
Bachelor of Computer Information Sciences –Software Development
(July 2017 Graduation)

WORK EXPERIENCE

Orion Health / Software Engineer Intern

November 2016 – February 2017, Auckland

During the last summer university break, I worked as a full-time Software Engineer Intern for the Research and Development department at Orion Health.

During my stay, I worked on updating and improving an existing IOS application, rewriting the RESTful API that serves the IOS application, re-designing the associated backend database and setting up an automated testing and deployment pipeline for future development.

New World Kerikeri /

Checkout Operator, Supervisor

February 2012 – February 2016, Kerikeri

In my university holidays, I would return to my hometown job. I started as a Checkout Operator but quickly progressed to a Supervisor, where I was entrusted to manage a large team and carry out various other duties.
